Education & Internship

January 2026 - present: Visma Acubiz, Copenhagen
Develop reusable UI components for an expense management application, implement features from Jira tickets, and improve UI/UX to enhance the overall user experience.

October 2025 - December 2025: Visma Draftit, Malmö
Built an interactive data visualization dashboard with React and TypeScript, managing component architecture, state, and UI design while collaborating with the team in production.

October 2024 - May 2026 (expected): Medieinstitutet, Remote
Studying Front-End Development with focus on HTML, CSS, JavaScript, modern frameworks, UX, accessibility (a11y), API integration, design tools, AI-assisted development, and collaborative group projects.

Work Experience

March 2022 - present: Visma Draftit, Malmö
Handled customer calls and emails while resolving issues and managing administrative tasks.

March 2021 - February 2022: Betssongroup, St julians, Malta
Provided email and chat support in a fast-paced iGaming environment.

November 2020 - present: Assistans i balans, Stockholm
Supported an 11-year-old girl with a disability, building patience and non-verbal communication skills.

February 2020 - August 2020: Mr Green/William hill, Sliema, Malta
Managed multi-channel customer inquiries in a high-pressure iGaming environment.

April 2018 - November 2019: Thales, Älvsjö
Packaged and shipped secure ID documents with high accuracy. Gained independence, reliability, and attention to detail.
